

When Failure is Not an Option!

CABLE

*Custom-built
quality cables*

*Quality you can count on, dependability surpassed
by none!*

Save time, save money and be confident in the knowledge that your cables were built and tested by WTI's trained production staff. We take pride in offering our customers the highest-quality products that they can count on!

www.gotowti.com
An ISO 9001 Certified Company

Features include:

- Factory built and tested cable assemblies for WTI Sidewinder series cameras and system products.
- WTI cables are of the highest quality and workmanship; built by trained professionals.
- A single cable provides video, data and power.
- Weatherproof connectors are assembled with quality gold pins for reliable operation in extreme conditions.
- Buying quality pre-assembled cables minimizes on-site time and saves money on the installation processes.
- Cable lengths available from 25 to 750 feet.

Contact a WTI "Solutions Specialist" to discuss your custom cable requirements.
